THE KIMIRICA
Story

A TALE OF PASSION & PURPOSE

Dive deep into the hearts and minds of the visionary founders – Mohit, Rajat, Kimi, and Rica Jain – whose unwavering commitment transformed their dreams into reality.

SCAN TO WATCH

Kimirica entered into a partnership with Hunter Amenities in 2017, an Indo-Canadian Joint Venture which exports products from Indore to Middle East, Europe, Africa & nearby countries.

Kimirica Hunter International is India's largest manufacturer of luxury hotel toiletries and guest room amenities, serving to largest number of International Hotel Chains in the region.

INNOVATORS FORMULATORS MANUFACTURERS

Much like a chef handpicks fresh ingredients for any dish, we at Kimirica formulate and manufacture every product with utmost finesse and attention to detail.

Backed by science-led innovation and powered by the goodness of plants, every product begins its journey in our lab and is then crafted to meet our quality standards.

A YES TO CONSCIOUS CHOICE.

While caring for the world around us, it is our constant endeavor to maintain transparency and integrity, along with highest standards.

OUR GREEN APPROACH

Kimirica is dedicated to serve high quality personal care & amenity products assuring adherence to sustainable business principles at every point of the value chain.

We achieve this by operating with an ecologically sustainable approach based on four eco-principles.

inspired by nature!

SAFETY

Quality Control

Each of our clients from the hospitality industry wants to serve the best to their guests. Every product is extensively tested and analyzed during research, production and even post the market launch. We never engage in animal testing.

GMP/FDA Approved Unit | We follow ISO-22716 GMP Production Guidelines (Good Manufacturing Practices).

Our products are manufactured under GMP/FDA approved pharmaceutical standard unit.

Safe Formulations | We make sure that our products are free from harmful chemicals and are safe to use. We believe in ingredient transparency and ensure that our consumers are well aware about what they use.

Product Liability Insurance | Kimirica insures its hotel clients with a General Liability Insurance against any claims made by the end user of the product.

WASTE

Recyclable & Biodegradable Packaging

Kimirica strives to maximize the use of recyclable, biodegradable and eco-friendly packaging materials for all its products.

Paper & Paper Board | We use eco friendly paper and paper board for all dry amenities packaging.

Right Size | Print to size minimizes the wastage of paper boards and labels. Our labels are printed on a very advanced digital technology which reduces the minimum printing quantities for even water/scratch resistant labels to a great extent.

Coating On Cartons | Discontinuing the use of lamination process on cartons that involves the use of thin BOPP which is non-biodegradable in nature, moving towards water based aqueous coating, giving a high aesthetic appeal with surface protection and rub resistance.

Rigid Packaging | All of our rigid packaging is 100% Recyclable.

ENERGY & WATER

Energy Saving Production Process

Energy Saving Production Process | Fortunately, the manufacturing of personal care products does not entail high energy and material inputs. We use advanced facilities and unique techniques that conserve both energy and emissions simultaneously.

Cold Process | For manufacturing of surfactant products we follow a "Cold-Process" system and for lotions we employ a unique technique that consumes 50% less energy as compared to the traditional processes.

Water Conservations | We minimize the consumption of water in our manufacturing processes. Although most of surfactant-containing body care products do end up in waste water, they are biodegradable and thus cause no threat to our ground water resources.

RAW MATERIALS

Safe & Green Ingredients

From the very first stage of procuring the raw materials, Kimirica follows ecological standards. Being a herbal health & luxury personal care product manufacturer, we use herbals actives that are 100% plant-based and are biodegradable in nature. All the ingredients we purchase undergo rigorous check by the manufacturer themselves and every product is still re-checked and tested at our unit. Our preference is to use safe ingredients that makes us one of the manufacturers in India producing 100% Vegan, Cruelty Free, Paraben Free, Formaldehyde Free, SLS Free products for the hospitality industry.

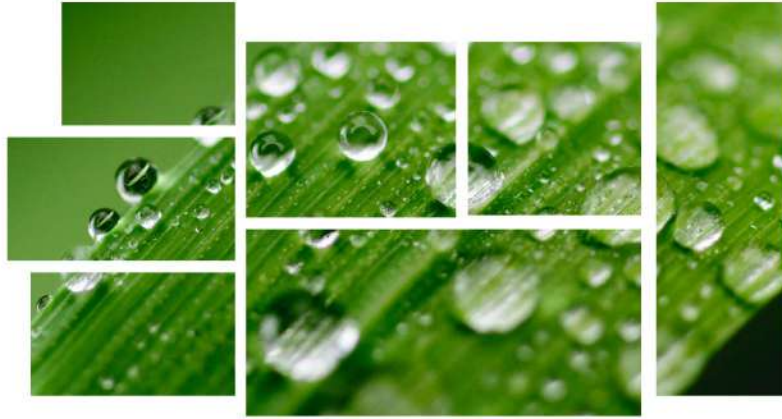

Fragrances | We only use vegan and IFRA certified fragrances in our products. Kimirica is proud to be technically supported by few of the largest companies in the fragrance industry. Our fragrance oils are designed in India, France, Spain and Switzerland.

Active Ingredients | Kimirica uses active ingredients which are safe & biodegradable in nature.

Base Ingredients | All our base ingredients are proudly free of Paraben, Formaldehyde, SLS. We use FDA approved colors in our formulations.

100% Vegan | We use 100% Vegan ingredients in all our products.

Our diverse range of brands is tailored to suit all hotels and resorts, accommodating a wide array of preferences. Beyond functionality, our products are designed to create memorable moments through enchanting fragrances.

Embrace the art of self-care with Kimirica Hunter:

where indulgence meets luxury!
